

## Humane League

I think the money should go to the Humane League. The Humane League can help animals in need so other people can adopt them. This is why the money should go to it.

My family got our cats from the Humane League. Now our cats are happy being with us. If other people want animals they can go to the Humane League. The Humane League needs money to keep all the animals healthy. They need to buy food and water so the pets can be happy.

If the money went to the Humane League, people could have happy pets that are healthy. That way both the people and the pets would be happy. Now choose the Humane League.
